INDEX TO VOLUME VI

Abdominal diagnosis, a new radiological procedure for, Abstract, 413.
Pain in Amebic Chronic Enteritis, Clinical and Fluoroscopical Study, E. Deglos, Abstract, 417.
Absorption, relative, of rays by skin, fat, and muscle, 566.
ABSTRACTS:
Aubourg, P. Carbon dioxide treatment for chronic dermatitis produced by roentgen work, 527.
Baetjer, F. H., and Friedenwald, Julius, Certain clinical aspects of peptic ulcer; roentgen ray diagnosis of 743 cases, 411.
Bailey, Harold, Radium in uterine cancer, 54.
Balfour, D. C., Polyposis of the stomach, 531.
Barringer, Benjamin S., Surgery vs. radium in the treatment of carcinoma of the bladder, 53.
Basch, Seymour, The differential diagnosis between chronic gastric ulcer and carcinoma of the stomach, 52.
Batten, George, Address to Roentgen Society: Electrons, 302.
Beck, E. G., The empyema problem, 252.
Bismuth paste in war surgery, 299.
Bensaude, R., and Guenaux, G., Roentgen diagnosis of cancer of the large intestine, 525.
Billings, Frank, The principles involved in focal infection as related to systemic disease, 159.
Black, Arthur D., Abstract of discussion of symposium on mouth infections, 156.
Roentgenographic and microscopic studies of tissues involved in chronic mouth infections, 159.
Block, E. Bates, The relation of oral sepsis to the nervous system, 102.
Bloodgood, J. C., Treatment of tumors of the upper jaw with cautery, 255.
Bloomfield, Arthur L., and Waters, C. A., The correlation of *x*-ray findings and physical signs in the chest in uncomplicated epidemic influenza, 532.
Bödler, Lorenz, A case of congenital permanent dislocation of the patella, 475.
Boggs, Russell H., The comparative value of radium and roentgen radiation, 53.
Radium in cancer, 476.
The value and limitations of radium in the treatment of cancer, 298.
Bougourd, A speedy and inexpensive process for obtaining radiographic reduction on bromide paper, 477.
Braasch, W. F., and Olson, F. A., Roentgenographic diagnosis in renal tuberculosis, 528.
Brown, Alexander G., Oral sepsis and the cardiovascular system, 51.
Brown, George E., Syphilitic aortitis and its early recognition, 204.
Brown, Lawrason, and Sampson, Homer L., The early roentgen diagnosis of ulcerative tuberculous colitis, 469.
Brown, Lawrason, Heise, F. H., and Sampson, H. L., A study of pulmonary and pleural annular radiographic shadows, 200.
Bugbee, H. E., Clinical study of lithiasis, 258.
Bumpus, H. C., Diverticular of the posterior urethra, 586.
Burchard, A., Roentgenological demonstration of muscle changes produced by various anaërobes in gaseous edema, 585.
Burrows, Arthur, The therapeutics of radium, 255.
Clark, John G., The therapeutic use of radium in gynecology, 55.
Treatment of myoma uteri with radium, 585.
Abstracts—*Continued*
Clark, S. M. D., Use of radium in 50 cases of uterine hemorrhage from other causes than carcinoma or myomas, 587.
Clark, William L., Cancer of oral cavity, jaws and throat, 202.
Collin, E., Pontopiddan, B., and Schou, H. I., Light in treatment of tuberculosis of bones and joints, 201.
Constantin, Vigot and Gosselin, Immobility of the cardio-pericardial shadow considered as a pathognomonic sign of a lesion of the heart, 474.
Coolidge, Edgar D., A discussion of the responsibility of the dental profession in the diagnosis and treatment of conditions in and about root canals, 103.
Dandy, Walter E., Fluoroscopy of the cerebral ventricles, 203.
Darier, J., Counter-indication of radiotherapy in certain cancers of the skin, 414.
Deglos, E., Abdominal pain in amebic chronic enteritis, clinical and fluoroscopic study, 417.
Dershem, E., Resolving powers of *x*-ray spectrometers, and the tungsten *x*-ray spectrum, 104.
Deutsch, X-ray diagnosis of syphilis, 105.
Dor, L., Optic neuritis due to dental infection, 205.
Thrombosis of the retinal veins due to dental infection, 206.
Douglas, Carcinoma of the stomach, 475.
Eggers, Carl, Empyema; analysis of 70 cases at base hospital, Camp Jackson, 252.
Eiken, T., Roentgen therapy of cancer, 583.
Ely, Leonard W., Legg's disease: arthritis deformans juvenilis: osteochondritis deformans juvenilis: Perthes's disease, 296.
Erdmann, J. F., Acute diverticulitis of the colon, 210.
Faxen, H., Scattered *x*-radiation due to heat motion of the molecules in crystalline reflection of *x*-rays, 104.
Freund, L., Electric diagnosis of internal ulceration, 206.
Friedenwald, Julius (See Baetjer).
Goetze, O., Radiological diagnosis with a distended abdomen; a new method, 110.
Granger, Amédée, Improved model of the Granger localizer, 203.
Grant, Andrew J., Diaphragmatic hernia, 653.
Gray, Alfred L., Treatment of non-malignant laryngeal vegetations by roentgen rays, 418.
